

INFORMATION SECURITY

February, 2026

Escubedo Turkey Management, manufacturer of electrical connection components, terminals, and connectors for the companies in the automotive and white goods sectors, publishes its Information Security Policy in accordance with the ISO/IEC 27001 Information Security Management System standard to ensure the protection and sustainability of information assets.

Through the implementation of the Information Security Management System, Escubedo Turkey undertakes to:

- Ensuring the **confidentiality, integrity, and availability of information assets** to earn and maintain the trust of our customers, employees, and business partners.
- Fully complying with all legal requirements, applicable standards, and information security obligations arising from contracts with partners, customers, and suppliers.
- Systematically assessing, controlling, and reducing information security risks to acceptable levels.
- Continuously improving physical, digital, and organizational security measures to prevent information security breaches.
- Providing necessary and qualified training to all relevant process owners and employees to increase the awareness and consciousness levels of information security.
- Reporting all actual or potential incidents to ensure business continuity, identifying nonconformities causing the incidents, taking preventive actions to avoid recurrence, and supporting a culture of continuous improvement.
- Establishing sustainable, trust-based cooperation on information security with employees and all other stakeholders.
- Managing information assets and measuring process performance based on the principles of "**Confidentiality, Integrity, Availability, and Sustainability**" to enhance system effectiveness.

Escubedo Turkey considers information security not only a technical requirement but also a fundamental element of corporate responsibility and sustainable success.

You can reach the email address informaticatr@escubedo.com for security breaches observed in our facilities.
